

# Crown & Anchor Wheel

Very simple to play and manage.

Tips:

1. One or more lay down mats can be used.
2. Bets are placed on any of the six designs.
3. When the wheel stops, the pay off is according to the position of the clapper. For example; if the clapper stops at - crown, spade, diamond, than the pay off would be for the players that laid their money down on each of these. They would receive even money back (doubled their money). If the clapper stops at three crowns, then the pay off is three to one,
4. Please Note: These games are not to be used in a public place such as arena, library, hall, and etc. It is unlawful to use these in a public venue.
