

# Duck Pond Assembly Instructions

1. Select a level area to operate game with plenty of room to allow for a line to form. Keep a safe distance between player and the electrical cord and power source.
2. Place the steel base on a firm, level area.
3. Place the tub on top of the base.
4. Attach the skirting to the tub.
5. Insert the sign posts on either side of the tub, and slip the sign board in place.
6. Put a rubber duck onto the tops of both posts.
7. When taking down the game, do not fold skirting wet. Always dry thoroughly first.
8. If storing outside, leave the tub upside-down, so that rainwater does not collect inside.
